Holiday Programmes

Many schools have resumed to normal closure of boarding houses during holidays, Whilst international travel is still disrupted there are many international students stuck in the UK, exceeding the nation's homestay capacity.

We are offering residential revision and/or activity programmes instead, for our own guardianship students as well as students not under our guardianship.

If you have students who would like to attend one of our partner programmes, please contact us.

If you run your own holiday programme and would like us to work in partnership with you, please email office@studylinks.co.uk

STAR STUDENT – Charmaine Wong

Charmaine had an amazing school report – Charmaine moved up 4 grades in just 6 weeks! This is outstanding progress and achievement, her improvement was due to fully embracing the UK education system, following teacher's advice, and a lot of hard work and determination. Well Done!
